

JARED SHARNOWSKI

45562 Emerald Forest Dr · 248-921-7915

sharnoja@umich.edu

The goal of my career is to make an impact on medicine both inside the operating room and out. I intend on attending medical school to specialize in orthopedics while continuing to head my orthopedic soft good start up, Jarski Medical Solutions. With both, I will help patients in need while using my company to innovate new solutions for problems I first-hand experience within orthopedics.

EXPERIENCE

SEPTEMBER 2019 – PRESENT

FOUNDER/CEO, JARSKI MEDICAL SOLUTIONS

As founder and CEO of Jarski Medical Solutions, I orchestrate all legal, business, and engineering operations. Led way of acquiring a non-preliminary patent for the Adaptable Finger Splint and preliminary patent for the Force Redirecting Boot.

EDUCATION

JANUARY 2022 - PRESENT

BIOMEDICAL ENGINEERING, UNIVERSITY OF MICHIGAN

GPA 4.0

Dean's List

SEPTEMBER 2020 – DECEMBER 2021

BIOMEDICAL ENGINEERING, MIAMI UNIVERSITY (OH)

GPA 3.98

President's List

SKILLS

- Patent Law
- Prototyping
- Innovation
- CAD
- Entrepreneurship

ACTIVITIES

I enjoy participating in activities that both give back to the community and involve innovation in medicine. I am currently in the volunteer group Medlaunch working on a hands free umbrella that is accessible for patients with cerebral palsy.
