# Outsourcing the website

Let's finally settle our perpetual website troubles:

1. It's not very intuitive
2. Some administrative functions are very confusing
3. Crashes during larger meetings
4. Overall UX design not great

So,

Would it be viable to have a third-party to build our website?

What features would you like to see on it?

# Rainy-Day Funds

If TBP lost their main source of revenue (ie. the career fair), what could the organization do to earn income?

- Would it be smart to make consistent donations to the TBP endowment fund?
- What fundraising efforts should we pursue?
- Any other ideas?
