

The Cornerstone

Volume 32, Issue 7

March 26, 2024

Tau Beta Pi
The Engineering Honor Society

Letter From the Historian

Welcome Back Actives!

I hope you are doing well! Today, we will be voting on our electees to determine whether or not they will become actives! As always, the eligibility code is included in The Cornerstone, and you can find it on the next page.

Additionally, the next meeting will be elections! If you are interested in becoming more involved in TBP, then you should run for a position! There is a brief overview of each position in the meeting slides, and I highly encourage you to reach out to any current officers if you are interested. As a first-time officer this semester, I have had a great time and gained valuable experience being a part of our officer team.

Be sure to sign up for banquet! It is limited to 80 people, so sign up as soon as possible to ensure your spot. Until then, have fun attending all of the other fun events on the TBP calendar!

Finally, remember to submit your Cornerstone feedback and/or suggestions at tbpmig.org/digitalcornerstone or tbpmig.org/cornerstonecontribution.

Go Blue!

Upcoming Events

- DEI Talk - Accessibility in Engineering: 3/27, 5:00 - 6:00 P.M.
- Knitwits III: 3/28, 4:00 - 6:00 P.M.
- Professional Experience Panel: 3/28, 6:00 - 7:00 P.M.
- March Game Night 2: 3/29, 4:00 - 6:00 P.M.
- DEI Potluck: 3/30, 6:00 - 8:00 P.M.

Eligibility Code

In order that there may be a more uniform basis for selection of members for Tau Beta Pi, these suggestions are offered. It is expected that a copy of this statement be given each active member before every election, and it may at times serve as a general expression of our policy in the selection of members.

It is the purpose of the Society to mark in a fitting manner those who have conferred honor upon their alma mater by distinguished scholarship and exemplary character as students, or by their attainments as alumni.

Distinguished scholarship, while the primary requisite for admission, must not be considered the sole criterion.

After the scholastic requirements have been fulfilled, the selection shall be based on integrity, breadth of interest both inside and outside of engineering, adaptability, and unselfish activity.

We consider that true integrity is the sine qua non for membership in Tau Beta Pi, that it transcends in importance scholarship, activity, and every other qualification. Without private and public integrity, we believe that no organization is worthy of existence. Under integrity, we include honor and high standards of truth and justice. Breadth of interest sufficient for eligibility in this Association will enable people to maintain their positions in their community by the exercise of qualities other than engineering ability.

True engineers must be able to adapt themselves ingeniously to all circumstances and conditions, making them conform to the desired purpose.

The rating of people on the degree of unselfish activity manifested, is intended to indicate that Tau Beta Pi believes that none can become worthy engineers without the welfare of associates, organizations, and the community at heart. It is furthermore expected that they display willingness to aid and assist in worthy causes by their actual campus record. However, the fact that people may not have shown unselfish activity to an appreciable degree throughout their courses of study is no infallible indication that they would not if the opportunity offered. The most conspicuous illustrations of this are those students who are self supporting, for which due allowance must be made and due credit given. In fine, it is in this capacity for the unstinted giving of their best, without thought of remuneration, that we believe lies one of the most sensitive tests for determining candidates' rights to bear the name and wear the Bent of Tau Beta Pi.
