Letter From the Historian

Welcome back Electees, Officers, and most importantly Benson,

I hope you are all having a wonderful semester as you further get to know your electee teams and the officers. Speaking of which, today your team will be sharing the powerpoint presentations that you have all worked incredibly hard on. At the end of the meeting the winning presentation will earn points for the corresponding electee team. You can monitor your score in the electee team competition on the TBP website under **For Members** → **Electee Resources**.

Additionally, elections are coming up soon! In the next TBP meeting, we will be deciding the new officers for the winter semester. If you want to increase your involvement with the chapter, please reach out to any of the current officers this semester (including me :D) and run for a position! The slideshows today will also contain information about each of the positions for reference.

As always, make sure to provide feedback on the digital cornerstones at tbpmig.org/digitalcornerstone or tbpmig.org/cornerstonecontribution. If you have any other feedback about any of my publications, please reach out to me directly or email me at tbp.historian@umich.edu.
