Letter From The Editor

Welcome to Tau Beta Pi!

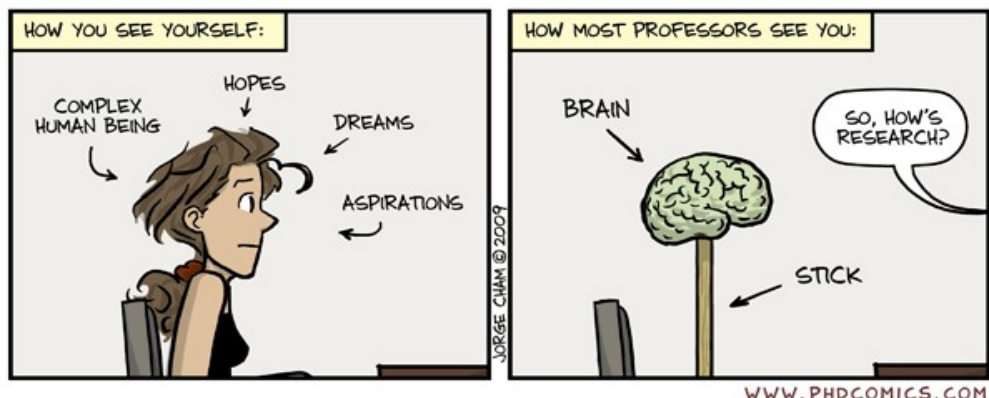

Hopefully you had an enjoyable summer. I am very glad you have arranged some time in your busy schedule to check out TBP. You are reading at this very moment the Cornerstone, our chapter's newsletter. Almost certainly you are wondering who I am. My name is Patrick McCauley, and I am this semester's Historian! I am responsible for both the Cornerstone and our Alumni Newsletter.

Each of you may be wondering, "why should I join Tau Beta Pi?" Last semester I had that same question. I found the answer to be the impact that TBP has on the College of Engineering community and the variety of opportunities for service, leadership, and networking. Also extremely important is the meal I can count on getting each week.

So I encourage you to think about this question as you listen to my fellow actives describe their experiences. Please reach out to current actives or myself with any questions you may have about electing or TBP in general. I look forward to a great semester with you!

Sincerely,

Patrick McCauley
