Welcome to Second Actives!

Operation Career Fair: **SUCCESS**

Another year, another career fair! The SWE/TBP Engineering Career Fair, now in its 28th iteration, took place on September 24th and 25th. The number of companies wanting to attend continues to grow, with nearly 300 companies in attendance this year. Student involvement continues to be as strong as ever, with over 3000 students attending each day. Tau Beta Pi was critical to the success of this career fair, led by directors Vicki Choe and Kevin Joseph as well as several chairs. Of course, there were also hundreds of hours volunteered by TBP electees and actives.

There were a few changes to this year's career fair that made an impact. The first was a redesigned website, which can be seen at umcareerfair.org. The new website allowed for easier registration for companies and also provided easy access to information such as the list of attending companies. The next change, which was more behind the scenes than the others, was the use of a shipping company to handle packages. Anyone who volunteered in the past and had to lug packages around North Campus should be glad (or jealous) to know we no longer ask that of anybody. Finally, a minor change which had a huge effect was the addition of card swipers to the student registration table. This allowed for students to speedily check in with their Mcard and grab a directory. Even though there was still a long line, most students didn't have to wait longer than 5 minutes before they could go in.

The SWE/TBP Career Fair remains one of the most anticipated events for the College of Engineering and continues to provide strong publicity for our organization. With the continued growth, its future looks bright indeed! ~Kevin Joseph

Hello TBP!

Vicki Choe and I are on a chemical engineering senior design project together where we're designing a cold cream.

Not sure what cold cream is? No problem! We'll tell you!

Cold cream is used for cleaning and moisturizing skin all while leaving the skin feeling cool and refreshed. Its uses include reducing acne breakouts, removing makeup, treating dry skin, and relieving sunburn. It may even have a use as an after shave.

Even if you've never heard of or used cold cream, your input is valuable to us. We would greatly appreciate it if you could take 2-3 minutes to fill out our market survey. The link is below, but for all of those smart phone users, we've created a QR code just for you =) Or you can access our survey through the TBP facebook page!

Journey Through The Burger!

by Andrew Bernhardt
5-27-1982

Two engineering students were walking across campus when one said, "Where did you get such a great bike?"

The second engineer replied, "Well, I was walking along yesterday minding my own business when a beautiful woman rode up on this bike. She threw the bike to the ground, took off all her clothes and said, "Take what you want."

The second engineer nodded approvingly, "Good choice; the clothes probably wouldn't have fit."
